
Before there was EWTN, there was Fulton Sheen

Before there was EWTN, there was Archbishop Fulton J. Sheen—a pioneer who saw every new form of media as an opportunity to share the Gospel. His bold vision inspired generations of Catholic communicators, including Mother Angelica, whose dream became EWTN. This September, witness the Beatification of Archbishop Sheen with exclusive live coverage, special programming, and inspiring reflections. Celebrate the man who helped transform Catholic media—and the legacy that continues to bring Christ to the world through EWTN.

His greatest miracle wasn't television – it was inspiring others to evangelize.
